AMPERAGE SCALE**

**FULLY AUTOMATIC
POWER DROP-OUT**

**INTEGRAL RCD
& CIRCUIT BREAKER**

RUGGED IP67 CASING

The Model 091-129B2 No-Load Dropout Switch is a safety device designed to protect against electric shock from mains shore lines when not in use.

Intended for use with the Auto-Eject and Eurochargers, the Auto-Safe makes the mains line go dead immediately upon ejection/disconnection from the vehicle.

The Auto-Safe cannot be re-set until the mains line is re-connected to the vehicle.

It has been developed particularly for standby vehicle and marine situations where mains shore lines may be left unattended.

091-129B2 with integral RCD & Circuit Breaker removes the necessity to install these extra items separately.

AUTO-SAFE "B2" WITH OPTIONAL IP67 OUTLET SOCKET

MODEL	AUTO-SAFE "B2" 115 volts	AUTO-SAFE "B2" 240 volts
PART No 10amps	091-129B2-115-10	091-129B2-240-10
